

Bookings. Communication. Payments.

All in one.

WHEN A CLIENT CHANGES PLANS

More time for your clients.

A client asks to move. *One* Intelligence carries the request through to the diary and confirmation. Your website, client records and checkout work together, with continuing software care from One.

1

Website & enquiries
A beautiful branded website.
Connected to enquiries and booking.

2

Bookings & team diary
Staff and availability in one diary.
Changes update the diary and confirmations.

3

WhatsApp & reminders
Routine messages, fewer interruptions.
Your team steps in when needed.

4

Billing & payments
Payments and receipts tied to the visit.
Operating reports help you follow the day.

5

Client history & care
Visits, preferences, messages and receipts.
Client context ready for the next visit.

6

Follow-up & rebooking
Rebooking with the client's permission.
A direct route back into the team diary.

 MANAGED BY *one*

One investigates issues and supports agreed fixes.
Website built once at setup. Bug fixes when needed.

 LED BY YOU

You approve changes and handle service exceptions.
AI supports routine work; relationships stay yours.

 A supported switch. On your terms.

Keep your current setup live while we compare agreed records.
Approve the switch when bookings, balances and supported history agree.
Your supported scope, setup and subscription costs agreed upfront.

Let us look at your day.
